

# Knowledge Translation Workshop

## Getting evidence into practice: steps to success

### About the course

Have you ever tried to get a new guideline or piece of evidence into your everyday practice, and been surprised by how long it took and how complex it was? Did you struggle to measure the project's success? As you reflect, you can likely identify what would have been helpful to know beforehand, and what support you would've liked along the way.

*Getting evidence into practice: steps to success* is a three-day, highly interactive and outcome focused workshop that covers the essential skills and knowledge needed to facilitate the implementation of evidence and innovation into everyday practice.

### Course outline

This is a participatory course, with interactive group discussions, role-play and group activities. Course content will cover the following topics:

- What is Knowledge Translation and why is it important?
- Introducing the i-PARIHS framework
- Managing complex change: the central role of facilitation
- Identifying and preparing individuals to become facilitators
- Identifying, engaging and communicating with stakeholders
- Methods for evaluating an implementation project
- Evaluating in practice
- 'Shark Tank' presentation

For further details, visit:

[aushsi.org.au/training/research-translation-and-implementation/](http://aushsi.org.au/training/research-translation-and-implementation/)

### Target audience

- Health Professionals
- Health Service Managers
- Academics and PhD students with an interest in Health Services Research and Implementation Science

The program will offer new insights and a series of practical tools and techniques, as well as give you an active and vibrant network of likeminded health professionals to connect with on future journeys.

### Course presenters and panellists

Led by an internationally renowned team of knowledge translation researchers, facilitators and practising clinicians from Queensland and South Australia, you will learn how to set up an implementation project, how to facilitate the process and how to evaluate its impact.

- **Adrienne Young, Alison Mudge, Prue McRae:** Royal Brisbane and Women's Hospital
- **Alison Kitson, Gill Harvey:** The University of Adelaide
- **Megan Campbell, Sonya Osborne:** AusHSI

Special Guests:

- **John Wakefield:** Deputy Director-General, Department of Health – Queensland
