

Knowledge Translation Workshop

20 November 2018, QUT Gardens Point

Roman Kislov

Senior Research Fellow,
The University of
Manchester

Dr Roman Kislov conducts qualitative research on the processes and practices of knowledge mobilisation, with a particular interest in communities of practice, intermediary roles, organisational learning and implementation of change. He is currently leading a longitudinal study into the development of knowledge mobilisation strategies over time and a multiple case study of research co-production in multi-professional project teams, which are both funded by the National Institute for Health Research Collaboration for Leadership in Applied Health Research and Care (NIHR CLAHRC) Greater Manchester—a partnership between the University of Manchester and local providers of health services.

Ian Graham

Professor at the University
of Ottawa and Senior
Scientist, Ottawa Hospital
Research Institute

Professor Ian Graham's research focuses on knowledge translation and conducting applied research on strategies to increase implementation of evidence-informed practice. He has published over 250 peer reviewed articles and is co-editor of *Knowledge Translation in Health Care* (2009) and *Evaluating the Impact of Implementing Evidence-based Practice* (2010). Ian was awarded the Queen Elizabeth II Diamond Jubilee Medal for his "leadership contributions to CIHR and for changing the way research knowledge is used and demonstrating to funding agencies around the world how to move knowledge into action."

Gill Harvey

Professorial Research
Fellow, School of Nursing,
The University of Adelaide

Professor Gill Harvey is a Professorial Research Fellow in the School of Nursing at the University of Adelaide. Gill has a professional background in nursing and her teaching and research interests are in the field of quality improvement, knowledge translation and facilitating evidence-based practice in health care.

Alison Mudge

Physician, Internal
Medicine and Aged
Care; Health & Medical
Research Fellow, RBWH

Adjunct Professor Alison Mudge is a general physician and a Queensland Health and Medical Research Fellow. She is Clinical Director of Research and Education in the Internal Medicine and Aged Care Department, Royal Brisbane and Women's Hospital. Alison leads a collaborative multidisciplinary research group committed to improving hospital and post-hospital care for complex older patients and leads the Eat Walk Engage program, an evidence-based inpatient model to reduce delirium and enhance functional recovery in older inpatients.

Megan Campbell

Centre Manager,
AusHSI

Megan is the Centre Manager of the Australian Centre for Health Services Innovation (AusHSI) based at QUT. With over 15 years' experience in complex, large-scale research program development and management, Megan provides leadership in strategic development of research opportunities, and facilitation of strategic health industry linkages.

John Wakefield

Deputy Director
General – Clinical
Excellence Division,
Queensland Health;
Adjunct Professor of
Public Health, QUT

Adjunct Professor John Wakefield has over 25 years' experience in clinical and management roles in rural, regional and tertiary public sector health services in Queensland. He established the Queensland Health Patient Safety Centre, a state-wide network of patient safety officers and a legislative framework for incident analysis; ultimately demonstrating measurable reductions in preventable adverse events. John is actively involved with the Australian Commission for Safety and Quality in Healthcare and chaired the National Open Disclosure Pilot.
