

Activity: Resident Scenario

Edwina is 85 years old with a history of osteoarthritis, cardiac failure and mild stroke. She wears glasses and a hearing aid. Edwina is cognitive, just forgetful at times, walks with a wheelie walker, and needs assistance to go to the toilet. She is frail and thin.

Edwina has been complaining of a pain in her stomach, says she feels sick and does not want to eat. She is agitated and looks distressed.

What signs of deterioration are there?

What assessments should you do?

What will you communicate?

What reviews or follow-ups?
